

PROFESSIONAL SUMMARY

Experienced Full Stack Software Engineer skilled in designing, developing, and maintaining web applications using .NET, Angular, and SQL technologies. Adept at problem-solving and debugging, with a strong foundation in Agile methodologies and collaborative team environments. Committed to delivering high-quality, scalable solutions while continuously enhancing technical skills.

EXPERIENCE

Software Engineer: LnP Infotech, India

Apr 2025 – Present

- Develop and maintain scalable, client-focused .NET Core, Angular, and MS SQL applications, collaborating with Project Managers and clients to gather requirements and ensure timely delivery.
- Lead and manage a team of 1-3 developers, coordinating tasks, mentoring, and driving productivity and code quality.
- Design, develop, and integrate REST APIs within Agile sprints, enhancing system interoperability and driving faster feature delivery.

Dot Net Developer: Expert It Brains, India

Jan 2025 – Apr 2025

- Developed and maintained web applications using .NET technologies.
- Assisted in debugging and resolving issues to enhance stability and performance.
- Contributed to feature development and enhancements under mentorship, ensuring alignment with client requirements.

Software Developer: Vineforce IT Services, India

Apr 2024 – Jan 2025

- Resolved 100+ bugs in production, improving performance by 30% and enhancing application stability based on user feedback.
- Developed and integrated new features, boosting user satisfaction by 25%, using Java to deliver tailored solutions.
- Implemented Agile practices with daily updates, increasing team collaboration and project tracking by 20% for smoother delivery.

SKILLS

- Languages:** C#, Java, Python, TypeScript, SQL
- Web Technologies:** HTML, CSS, Bootstrap, Angular
- Frameworks:** .NET, .NET Core, MVC
- Databases:** MS SQL, MySQL
- Tools:** Git/GitHub, Postman
- Methodologies:** Agile/Scrum, SDLC
- APIs & Testing:** REST APIs, Unit Testing, Manual Testing

PROJECTS

Insurance Management System

Domain: Web Application | Technologies: Angular, .NET Core, Redis, MS-SQL, Bootstrap

- Developed a comprehensive insurance management platform with real-time updates, claims processing, and complex workflow automation.
- Integrated third-party APIs, ensured data security and compliance, and delivered features like policy creation, claims tracking, and real-time notifications.

Digital Identity & Access Management Platform

Domain: Cybersecurity Web Application | Technologies: Angular, .NET Core, MS-SQL

- Built a secure identity and access management system with multi-factor authentication and role-based access control.
- Integrated external identity providers and APIs to ensure scalability, reliability, and compliance, implementing audit logging.

EDUCATION

Lovely Professional University

Master's in Computer Application

Sep 2022 - May 2024

Girijananda Chowdhury Institute of Management & Technology

Bachelor's in Computer Application

Aug 2019 – Aug 2022

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- Achieved 4-Star rating in Java on HackerRank.
- Recognized for exceptional leadership and teamwork skills in a competitive event, earning the Player of the Series title.
- Nominated and elected as Vice President, demonstrating leadership and commitment to community engagement.
